Python For Data Science

Yogesh Sharma

Python Developer || Machine Learning || Web Scraper || Data Analytics || Automation || Cloud Operations.
Bengaluru, Karnataka, India

Summary

Expert in Python, django, API, Numpy, Pandas, Matplotlib, Seaborn, OpenCV, NLTK, and more. I've tackled real-world projects, delving into data analysis, machine learning, web scraping, and natural language processing. I've also mastered PySpark, Snowflake, AWS, and automation, alongside expertise in Jira Zephyr API integration, Azure AI Studio, and OpenAI. My expertise is backed by a solid educational foundation, including BCA and MCA degrees, emphasizing user experience principles. I'm eager to contribute my skills to your team and further enhance my capabilities in the industry.

Experience

Gmware
Software Developer
May 2024 - Present (1 year)
Bengaluru, Karnataka, India

At Gmware, as a full-time employee, I developed expertise in managing ai/ml, model trainning and APIs to retrieve data from e-commerce platforms and ensuring data quality through robust validation processes. I gained proficiency in AWS services, including CloudWatch and Lambda, to streamline monitoring and automate workflows. Additionally, I managed proxies to handle requests effectively, mitigating blocking issues and optimizing resource utilization by minimizing bad requests.

PeopleFlow
Software Developer
January 2024 - March 2024 (3 months)
London Area, United Kingdom

At PeopleFlow, as a full-time employee, I honed skills in automation, Jira Zephyr API integration, Azure AI Studio, and OpenAI strengthening data-driven decision-making. My contributions enhanced project outcomes, promoting

informed choices. This experience bolstered Python expertise, enabling me to effectively tackle complex data challenges.

Techment Technology
Data Engineer
October 2023 - January 2024 (4 months)
Bhilai, Chhattisgarh, India

Experienced Data Engineer proficient in ETL processes, Snowflake, and Databricks. Adept at transforming raw data into meaningful insights, optimizing data workflows, and ensuring robust data pipelines. Passionate about leveraging cutting-edge technologies to drive efficiency and deliver high-quality analytics solutions in dynamic environments.

KPMG India
Data Analytics Consulting Virtual Internship
September 2023 - September 2023 (1 month)
India

I have completed my virtual internship in Data Analytics Consulting Virtual Internship at KPMG. It was definitely a very enriching experience to be a part of this virtual internship program at KPMG. I have accomplished Data Quality assessment, Data Insights, Presentation

Globussoft Technology
Data Scientist
September 2022 - July 2023 (11 months)
Bhilai, Chhattisgarh, India

At Globussoft Technology I've honed skills in Python, Numpy, Pandas, Matplotlib, Seaborn, OpenCV, NLTK, and more. I've tackled real-world projects, delving into data analysis, machine learning, web scraping, and natural language processing.

Education

Shri Shankaracharya Technical Campus
Master of Computer Applications - MCA, Computer Software Engineering · (August 2021 - August 2023)
